Domain Name: Website and Shopping Cart Setup:

Cashaway.com is owned by ShowyFlash of www.ShowyFlash.com

We can help you setup a Website for your business and utilise the Cashaway.com Shopping Cart System. This will save you money and you will finish up with an exceptional presentation and online selling system for your business.

We offer money saving products to assist you in marketing your business. Our most popular product is Option 2 the "Do it Yourself" system explained below. Many clients use the "Do it Yourself" system because it saves on design costs and it is fully controlled by you

A Quick Overview and Solution with Several Options

1) How to setup a Domain Name and Website and Shopping Cart

- Setup a Website Domain Name as either a .com or .com.au (or any kind of Domain Name) for the cost of \$45 for a .com.au or about \$20 for a .com
- Open an account with Showy-Flash.com for a "do it yourself" Website system and create a Website yourself using the easy walk through system, or ask a friend to help. Only basic skills are required and they are user friendly. Try the "test drive" to see it working and demonstrated at www.Showy-Flash.com
- If open an account with us at Showy-Flash.com, you decide that you do not wish to build the Website yourself, then we can build it for you as a once only cost. Our rates are low and extremely good value. Ask us for a quote.
- Open a Free Sellers Account at www.Cashaway.com and list all of your products.
- Create a link on your new Website that says: "Buy Online: Click Here" and place a link to your new MultiCart Shopping Cart directly onto your Website.

If you have any difficulty with any of this, give us a call or email and we will help you.

2) How to setup a Domain Name link direct to your Shopping Cart (no Website)

Some clients decide that they do not need a Website, and prefer to send people direct to their own MultiCart Shopping Cart directly from their Domain Name. This is the process:

- Setup a Website Domain Name as a .com or .com.au (or any kind of Domain Name) for the cost of about \$69.00 AUD. It must have a forwarding url feature. The registration authority that we use does do so. The subscription period is 2 years. This means that every 2 years, you will need to pay the subscription renewal. Currently it is \$69.00
- Open a Free Sellers Account with us at www.Cashaway.com and list all of your products in there.
- Contact us, and we will link your new Domain Name with your MultiCart Shopping Cart.

How will this work?

As an example: Register a new Domain, (anything of your choice, provided that it is available) say: www.yourname.com When people type in www.yourname.com they can be taken direct to your MultiCart Shopping Cart Store. This means you do not need a Website at all, and the only cost of running the whole system is \$69.00 every 2 years for the Domain Name, and the small percentage that we charge for usage of the MultiCart.

You cannot get a more lower cost system than this anywhere!

On top of that, it is all tailor made direct to your own Domain Name, and your own Shopping Cart system!

If you have any difficulty with any of this, give us a call or email, and we will help you.

3) How to setup a Shopping Cart only without a Website or Domain Name:

Some clients do not want a Domain Name or a Website, and they want to have a Shopping Cart system only. This is possible. It is not recommended but it can be done.

- Open a Free Sellers account with us at www.Cashaway.com
- When you sign up, you can choose your own URL address
- Example: If you want "yourName" to be the Website address, then create the account with "yourName" as the login.
- Go to "Sellers" and register for a new account, and choose "yourName" to be your login. Fill in the rest of the information.
- In this case, your Website address direct to your own personal MultiCart Store will be as follows: www.Cashaway.com/store/yourname
- Advertise your MultiCart Store to everyone you know. This will be your permanent internet Website address where people can purchase your goods.

Obviously "yourName" is just an example. Choose your own, maybe your personal Name, or business Name, or even a nick Name.

If you have any difficulty with any of this, give us a call or email, and we will help you.
